

MAGNITUDE®

Introducing Raised Flooring with an Interchangeable Magnetic Surface

Flexible, simple and always beautiful.

The Magnitude® Raised Flooring System from Brumark features luxury vinyl tile (LVT) surface panels with a magnetic backing. The durable panels simply attach to the raised sub-floor for the ultimate flexibility and reuse!

Flexible - Change out the surface panels to create a new look in minutes; aluminum edge ramps with a special channel for LED lighting capability

Simple - No adhesives to apply during installation; quick and easy roto-lock connection system

Beautiful - Available in a variety of attractive standard finishes and custom options, including printable flooring

Cost-effective - Change or update the surface without investing in a new flooring system

Versatile - Designed for high-traffic areas and commercial use; rent or purchase; offers 3/4" of clearance for wire management.
