

Titan Raised Floor

Convenient System Designed to Hold Heavy Loads

Brumark's Titan Raised Floor is engineered to hold very heavy weights – including cars! But it's also a convenient option for lighter loads, making it a great choice for a wide range of exhibit and event applications.

- Very strong – holds heavy loads
- Fast, simple installation and dismantle
- Simple panel and foot construction
- Levels from the top
- Green flooring option – LEED-certified plywood panels and low-VOC adhesives
- Uses chipboard for heavier loads, and panel clips for lighter weights
- Made in the USA

Specifications

- Panel Size: 1 meter x 1 meter
- Panel Thickness: 38 mm
- Minimum and Maximum Height: Dependent on load values
- Panel Weight: 40 lb.
